

Choropleth Map to show the Population Density of Japan's Prefectures

Task: Create a **choropleth map** by **shading in** each **prefecture** of Japan to show how high its **population density** it.

Use **shades of one colour** (even just pencil will do) by pressing lighter or harder. The **darkest shade** needs to be the **highest population density**.

Key

	Over 500 people per km ₂
	200 - 500 people per km ₂
	Below 200 people per km ₂
