Why not try making your own hina doll? Decide whether you are going to make an emperor or empress and think carefully about your design.

1. Cut out the template along the dotted lines (taking care not to cut the arms off!)

2. Fold the arms down.

3. Decorate the front, either using paints or crayons. A there could be used for the dress, such as springtime. Think carefully about the kimono designs. Wool could be glued onto the head to create hair.

4. Allow to dry and then stick the back of the body together. Display!
